

INTEGRATING GENDER IN THE MINISTRY OF YOUTH'S ACTIVITY MEL PLAN

The Monitoring, Evaluation and Learning Activity held a gender integration session as part of the MEL capacity building sessions aimed to train staff at the Ministry of Youth on how to develop a MEL Plan. Developing the Ministry's MEL Plan for the Partner Government Systems Agreement between USAID and the Government of Jordan.

“ The Ministry of Youth focuses its efforts on engaging and activating the female youth component in society. Young women have their own needs and requirements that must be taken into account when designing youth activities and facilities to meet their needs and ensure effective and safe participation for them. We learned this during an Activity MEL Plan training session provided by the USAID Monitoring, Evaluation, and Learning Activity.”
