

BUILDING THE MEL CAPACITY OF THE MINISTRY OF YOUTH STAFF TO DEVELOP THEIR ACTIVITY MEL PLAN

The Monitoring, Evaluation and Learning Activity held a series of capacity building sessions for staff at the Ministry of Youth which concluded with developing a full pledged MEL Plan. This training provided Ministry staff with tools to monitor the new USAID Partnerships for Youth award that aims at expanding opportunities for Jordan's youth.

Developing the Ministry's MEL Plan is part of the Partner Government Systems Agreement between USAID and the Government of Jordan.

When you set a realistic objective and make an evidence-based decision, your chances of achieving a tangible result are high. This is one of the things we learned when developing the theory of change during an Activity MEL Plan training session provided by the USAID Monitoring, Evaluation, and Learning Activity.”
